COMPACT DESIGN  
BIG IN PERFORMANCE

# G2500HD

**1. WORKING COMFORTABLY**

A comfortable and spacious working environment.

**2. WORK SAFELY**

The cabin and safetyroof are internationally ROPS/FOPS certified.

**3. SERVICE**

Daily checks and maintenance to the G2500 HD can be carried out quickly and in a safe manner because service points are easily accessible.

**4. POWERFUL PERFORMANCE**

A new 4 cylinder, Kubota, engine without DOC and DPF system ensures enough power.

**5. COMPACT DESIGN**

The compact dimensions of the G2500 HD ensure that the machines can operate in small spaces.

**6. MANOEUVRABILITY AND STABILITY**

The articulated pendulum joint provides manoeuvrability and stability.

**7. PRODUCTIVITY**

Hydrostatic 4 wheel drive, 2 gears and 8 ton planetary axles for sufficient traction and precise operation.

**8. HYDRAULIC**

Standard equipped with a double acting hydraulic function on lifting arm (mechanical) than can easily be expended with extra hydraulic functions and an electrically switchable tandem pump.

**9. SPEED**

0-10 km/h 0-20 km/h (with 2 gears).

**10. CHOOSE THE MACHINE FOR YOUR WORK**

Depending on your work you choose a standard or X-TRA version with the correct options.

POWERFUL PERFORMANCE WITH G2500 HD (X-TRA)

The G2500 HD (X-TRA) operates in the 2.5 tonnes class with an operating weight of 2.400 kg. The articulated loader are powered by a 4- cylinder, Kubota engine without DOC and DPF. Both machines have hydrostatic 4 wheel drive, 2 gears and 8 ton planetary axles. Together with the limited slip on both axles, this drive ensures that the wheel loaders have sufficient traction (18,000 N) and moves smoothly for precise operation.

The compact design of the G2500 HD makes it possible to work in places with limited space. The limited height of 232 cm also offers the possibility to carry out work indoors. Optionally, the models can be equipped with a ROPS / FOPS, folding safety roof. This reduces the machine height with another 34 cm. The G2500 HD has a lifting height of 2.96 meters and tipping load of 2,050 kg. The X-TRA model has a lifting height of 2.49 meters and a tipping load of 2,600 kg.
